TAPESTRY SEGMENTATION PROFILE

+ WHAT IS TAPESTRY SEGMENTATION?

Tapestry Segmentation is a market segmentation system that classifies US neighborhoods based on their socioeconomic and demographic compositions. Tapestry is a system for classifying consumers and constituents using all the variables that can distinguish consumer behavior, from household characteristics such as income and family type to personal traits like age, education, or employment and even housing choices.

Tapestry Segmentation classifies US neighborhoods into 67 distinct market segments. Neighborhoods with the most similar characteristics are grouped together, while neighborhoods with divergent characteristics are separated. Tapestry Segmentation combines the “who” of lifestyle demography with the “where” of local neighborhood geography to create a model of various lifestyle classifications, or segments, of actual neighborhoods with addresses—distinct behavioral market segments.

+ WHO SHOULD USE TAPESTRY SEGMENTATION?

All companies, agencies, and organizations need to understand consumers/constituents in order to supply them with the right products and services and to reach them via their preferred media. These applications require a robust segmentation system that can accurately profile these diverse markets. The versatility and predictive power of Tapestry Segmentation allow users to integrate their own data or national consumer surveys into Tapestry Segmentation to identify their best market segments and reach them through the most effective channels.

+ TAPESTRY SEGMENTATION SUMMARY GROUPS

Esri's Tapestry Segmentation provides a robust, powerful portrait of the 67 US consumer markets. To provide a broader view of these 67 segments, Esri combined them into 14 LifeMode Summary Groups based on lifestyle and lifestage composition.

10D

DOWN THE ROAD

Down the Road is a mix of low-density, semirural neighborhoods in large metropolitan areas; half are located in the South, with the rest chiefly in the West and Midwest.

Almost half of householders live in mobile homes; approximately two-fifths live in single-family homes. These are younger, diverse communities, with the highest proportion of American Indians of any segment. These family-oriented consumers value their traditions. Workers are in service, retail trade, manufacturing, and construction industries, with higher proportions in agriculture and mining, compared to the US. This market has higher unemployment, much lower median household income and home value, and a fifth of households with income below poverty level.

US Household // 1,354,000
Average Household Size // 2.74
Median Age // 34.3
Median Household Income // \$36,000

+ OUR NEIGHBORHOOD

- Two-thirds of households are owned.
- Family market, primarily married couples or single-parent households (Index 145).
- Close to half of all households live in mobile homes (Index 808).
- Four-fifths of households were built in 1970 or later.
- About 18% of owned homes are valued under \$50,000 (over 3 times the US percentage).

10D

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Purchased a used vehicle in the past year, likely maintaining the vehicle themselves.
- Routinely stop by the convenience store to purchase a lottery ticket.
- Participate in fishing and hunting.
- Visit chat rooms and play games online.
- Listen to the radio, especially at work, with a preference for rap, R&B, and hip-hop music.
- Enjoy programs on Animal Planet, typically watching via satellite dish.
- Often prepare quick meals, using packaged or frozen dinner entrees.
- Favorite fast food: pizza.
- Frequent Walmart for all their shopping needs (groceries, clothing, pharmacy, etc.).

+ SOCIOECONOMIC TRAITS

- Education completed: 37% with a high school diploma only, 38% with some college education or a degree.
- Unemployment rate is 11.6%, higher than the US rate.
- Labor force participation rate is 59.6%, slightly lower than the US.
- Family-oriented, outgoing consumers; they place importance on preserving time-honored customs.
- They put a premium on convenience rather than health and nutrition.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

Mobile Homes:
Single Family

Median Value:

\$104,000

US Median: \$177,000

AGE BY SEX (Esri data)

Median Age: 34.3 US: 37.6

I Indicates US

RACE AND ETHNICITY (Esri data)

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 70.5 US: 62.1

INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

Median Household Income

Median Net Worth

AVERAGE HOUSEHOLD BUDGET INDEX

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

OCCUPATION BY EARNINGS

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

LifeMode Group • Scholars and Patriots

14B COLLEGE TOWNS

About half the residents of College Towns are enrolled in college, while the rest work for a college or the services that support it.

Students have busy schedules, but make time between studying and part-time jobs for socializing and sports. Students that are new to managing their own finances tend to make impulse buys and splurge on the latest fashions. This digitally engaged group uses computers and cell phones for all aspects of life including shopping, school work, news, social media, and entertainment. College Towns are all about new experiences, and residents seek out variety and adventure in their lives.

US Household // 1,104,000
Average Household Size // 2.12
Median Age // 24.3
Median Household Income // \$28,000

+ OUR NEIGHBORHOOD

- These are non-family households with many students living alone or with roommates for the first time.
- This segment is a mix of densely developed student housing and dorms with local residences.
- Off-campus, low rent apartments comprise half of the housing stock.
- Over three-quarters of the households are renter occupied, with one in ten remaining vacant.
- One-third of homes are single family; mostly occupied by local residents who own their homes.
- This market is bike and pedestrian friendly.

14B

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Own a laptop and a portable MP3 player.
- Watch movies and TV programs online; MTV and Comedy Central on TV.
- Use the Internet for social media connections, blogging, paying bills, and downloading music.
- Have cell phones only (no landlines) and enjoy customizing them.
- Popular activities: backpacking, Pilates, and Frisbee.
- Go out to the movies and out for drinks.

+ SOCIOECONOMIC TRAITS

- Their limited incomes result in thrifty purchases.
- They do not eat the healthiest foods, nor do they see a doctor regularly.
- They dress to impress with the latest fashions of the season.
- They prefer environmentally friendly products and vehicles that get good gas mileage.
- They're heavily influenced by celebrity endorsements and trends in magazines.
- They feel anything that can be done online is easier than in person.
- They have liberal political views.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

Multiunit Rentals;
Single Family

Average Rent:

\$890
US Average: \$990

AGE BY SEX (Esri data)

Median Age: 24.3 US: 37.6

LifeMode Group • GenXurban

RUSTBELT TRADITIONS

The backbone of older industrial cities in states surrounding the Great Lakes, Rustbelt Traditions residents are a mix of married-couple families and singles living in older developments of single-family homes.

While varied, the work force is primarily white collar, with a higher concentration of skilled workers in manufacturing, retail trade, and health care. Rustbelt Traditions represents a large market of stable, hard-working consumers with modest incomes but above average net worth (Index 111). Family oriented, they value time spent at home. Most have lived, worked, and played in the same area for years.

US Household // 2,685,000

Average Household Size // 2.46

Median Age // 38.4

Median Household Income // \$49,000

+ OUR NEIGHBORHOOD

- Almost half (46%) of the households are married-couple families, similar to the US (48%), most without children (also similar to the US); the slightly higher proportion of singles (Index 105) reflects the aging of the population.
- Average household size is slightly lower at 2.46.
- They are movers, slightly more mobile than the US population (Index 109), but almost half of householders (46%) moved into their current homes before 2000.
- Most residents live in modest, single-family homes in older neighborhoods built in the 1950s (Index 218).
- Nearly three quarters own their homes; over half of households have mortgages.
- A large and growing market, Rustbelt Traditions residents are located in the dense urban fringe of metropolitan areas throughout the Midwest and South.
- Most households have two or more vehicles available.

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Residents take advantage of convenience stores for fueling up and picking up incidentals.
- Watching television is a common pastime; many households have more than four TVs.
- Favorite programming ranges from ESPN, Animal Planet, and AMC to children's shows on Nickelodeon and Cartoon Network.
- Residents are connected; entertainment activities like online gaming dominate their Internet usage.
- Favorite family restaurants include Applebee's, Outback Steakhouse, and Texas Roadhouse.
- Radio dials are typically tuned to classic rock stations.

+ SOCIOECONOMIC TRAITS

- Most have graduated from high school or spent some time at a college or university.
- Unemployment below the US at 8%; labor force participation slightly higher than the US at 67%.
- While most income derived from wages and salaries, nearly 30% of households collecting Social Security and nearly 20% drawing income from retirement accounts.
- Family-oriented consumers who value time spent at home.
- Most lived, worked, and played in the same area for years.
- Budget aware shoppers that favor American-made products.
- Read newspapers, especially the Sunday editions.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

LifeMode Group • Hometown

12C SMALL TOWN SIMPLICITY

Small Town Simplicity includes young families and senior householders that are bound by community ties.

The lifestyle is down-to-earth and semirural, with television for entertainment and news, and emphasis on convenience for both young parents and senior citizens. Residents embark on pursuits including online computer games, scrapbooking, and rural activities like hunting and fishing. Since almost 1 in 4 households is below poverty level, residents also keep their finances simple—paying bills in person and avoiding debt.

US Household // 2,305,000
Average Household Size // 2.25
Median Age // 40.0
Median Household Income // \$27,000

+ OUR NEIGHBORHOOD

- They reside in small towns or semirural neighborhoods, mostly outside metropolitan areas.
- Homes are a mix of older single-family houses (61%), apartments, and mobile homes.
- A majority, 51%, of homes are owner occupied. (Index 80).
- Median home value of \$88,000 is about half the US median.
- Average rent is \$600 (Index 62).
- This is an older market, with almost half of the householders aged 55 years or older, and predominantly single-person households (Index 139).

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Small Town Simplicity features a semirural lifestyle, complete with trucks (domestic, of course), ATVs, and vegetable gardens.
- Hunting, fishing, and target shooting are favorite pastimes.
- A large senior population visit doctors and health practitioners regularly.
- However, a largely single population favors convenience over cooking—frozen meals and fast food.
- Home improvement is not a priority, but vehicle maintenance is.

+ SOCIOECONOMIC TRAITS

- Education: 65% with high school diploma or some college.
- Unemployment higher at 11.9% (Index 138).
- Labor force participation lower at 51% (Index 81), which could result from lack of jobs or retirement.
- Income from wages and salaries (Index 82), Social Security (Index 142) or retirement (Index 112), increased by Supplemental Security Income (Index 203).
- Price-conscious consumers that shop accordingly, with coupons at discount centers.
- Connected, but not to the latest or greatest gadgets; keep their landlines.
- Community-orientated residents; more conservative than middle-of-the-road.
- Rely on television or newspapers to stay informed.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

LifeMode Group • GenXurban

5E MIDLIFE CONSTANTS

Midlife Constants residents are seniors, at or approaching retirement, with below average labor force participation and above average net worth.

Although located in predominantly metropolitan areas, they live outside the central cities, in smaller communities. Their lifestyle is more country than urban. They are generous, but not spendthrifts.

US Household // 3,043,000
Average Household Size // 2.30
Median Age // 45.9
Median Household Income // \$48,000

+ OUR NEIGHBORHOOD

- Older homes (most built before 1980) found in the suburban periphery of smaller metropolitan markets.
- Primarily married couples, with a growing share of singles.
- Settled neighborhoods with slow rates of change and residents that have lived in the same house for years.
- Single-family homes, less than half still mortgaged, with a median home value of \$141,000 (Index 80).

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Prefer practical vehicles like SUVs and trucks (domestic, of course).
- Sociable, church-going residents belonging to fraternal orders, veterans' clubs and charitable organizations and do volunteer work and fund-raising.
- Contribute to arts/cultural, educational, political, and social services organizations.
- DIY homebodies that spend on home improvement and gardening.
- Media preferences: country or Christian channels.
- Leisure activities include scrapbooking, movies at home, reading, fishing, and golf.

+ SOCIOECONOMIC TRAITS

- Education: 64% have a high school diploma or some college.
- Unemployment is lower in this market at 7.4% (Index 86), but so is the labor force participation rate (Index 89).
- Almost 42% of households are receiving Social Security (Index 150); 28% also receive retirement income (Index 160).
- Traditional, not trendy; opt for convenience and comfort, not cutting-edge. Technology has its uses, but the bells and whistles are a bother.
- Attentive to price, but not at the expense of quality, they prefer to buy American and natural products.
- Radio and newspapers are the media of choice (after television).

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

President & CEO
The Retail Coach, LLC

About The Retail Coach

The Retail Coach, LLC, is a national retail analytics and locational intelligence firm that specializes in all aspects of retail market analyses and recruitment, from “macro to micro” trade area assessment to actively recruiting retailers on behalf of our clients.

Through its unique Retail:360 process, The Retail Coach offers a dynamic system of products and services that better enable communities to maximize their retail development potential.

Retail:360 Process

Providing more than simple data reports of psychographic and demographic trends, The Retail Coach goes well beyond other retail consulting and market research firms’ offerings by combining current national and statewide demographics and trend data with real-world, “on-the-ground” data gathered through extensive visits within our clients’ communities.

Every community is different, and there is no “one size fits all” retail recruitment solution. Compiling the gathered data into client-tailored information packets that are uniquely designed for, and targeted to, specific retailers and restaurants who meet the community’s needs helps assure our clients that they are receiving the latest and best information for their retail recruitment efforts — all with personal service and coaching guidance that continues beyond the initial project scope and timeline.

Our Retail:360 process assures that communities get timely, accurate and relevant information. Translating that data into the information that retailers need and seek assures our clients even better possibilities for tremendous retail growth and success.

The Retail Coach - It’s not about data. It’s about your success.
